EnergyPLAN Newsletter no. 24

January 2022

Dear colleague and EnergyPLAN user,

You receive this e-mail because you have once registered as a user of the EnergyPLAN computer model. We issue newsletters once or twice a year. If you do not wish to receive future newsletters, please send an e-mail to energyplanmodel@gmail.com.

PhD course: Advanced Energy System Analysis on the EnergyPLAN Model

On 25-27 April and 9-11 May 2022, Aalborg University hosts its annual EnergyPLAN PhD course. The use of Energy Systems Analysis tools is becoming increasingly important for PhDs around the world, and at AAU, we have been first movers. We have conducted this course for more than 15 years with great success and with the attendance of PhD fellows from around the world. In a combination of lectures and workshops, the course gives an introduction to advanced energy system analysis using the EnergyPLAN computer tool and model. The course is a total of 5 days (40 hours) and assignments of a total of 6-7 days (52 hours) and has a workload of 3 ECTS.

The deadline for registration is 4 April 2022. Registration is binding.

Call for abstracts 8th International Conference on Smart Energy Systems

8th International Conference on
Smart Energy Systems

4th Generation District Heating,
Electrification, Electrofuels and
Energy Efficiency

13-14 September 2022, Aalborg

#SESAAU2022

AALBORG UNIVERSITY
DENMARK

energy CLUSTER
DENMARK

We announce the Call for abstracts for the 8th International Conference on Smart Energy Systems. The conference is organized by Aalborg University and Energy Cluster Denmark with the aim to establish a venue for presenting and discussing scientific findings and industrial experiences related to the subject of Smart Energy Systems – including renewable energy, 4th Generation District Heating Technologies and Systems (4GDH), electrification of heating and transport sectors, electrofuels and energy efficiency. This 8th conference in the series cements it as a main venue for presentations and fruitful debates on subjects that are pertinent to the development and implementation of smart energy systems to fulfil national and international objectives. Again in 2022, we look forward to welcoming our participants to a hybrid conference with the possibility to attend either online or in person – this time in Aalborg.

The Call is open and you can submit your abstract until 28 March 2022.
